PERSONAL PROFILE

Bachelor of Informatics students who have an interest in FrontEnd Developer and BackEnd Developer. Able to create an attractive website appearance for portfolios. Experienced in designing the external appearance of websites and can also operate databases on websites. Proficient in using HTML, CSS, Figma, JavaScript, PHP

PROFESSIONAL EXPERIENCE

Informatika Mercubuana Yogyakarta, South Yogyakarta, Indonesia

Informatic (2021 – Now)

As a student I learned all the basics of informatics. In Web Development I studied HTML, CSS, JavaScript, PHP, SQL. I also learned Java with OOP principles and Firebase for Web Development

Selected Contributions:

- ◆ Contribute to the software development team to create a website measuring the level of internet addiction among teenagers.

AFEKSI Indonesia, Surabaya, Indonesia

BackEnd Developer Intern (April 2024 – Jun 2024)

During my internship, I learned many things from the loyalty system implemented at AFEKSI. For example, I learned to Manage Databases from Websites. For programming, I mostly use the PHP language and my framework uses Laravel.

Selected Contributions:

- ◆ Build an Admin Website
- ◆ Building a service payment reminder system (VIA EMAIL/ WA)
- ◆ Building an E-Book service system

Frelancer, Yogyakarta, Indonesia

Web Designer (2023 – Now)

As a student who understands the web, I once created a project for web design for tire repair and motorbike rental, the programming language I used at that time was PHP(codeEgniter3)

Selected Contribution:

- ◆ Create an Website and Admin Website
- ◆ Create an order display
